

# The reference in high-precision outdoor monitoring

Control > Identification > Alert > Regulation > Remediation

# WT1 LITE

Optimized for real-time insights along fencelines

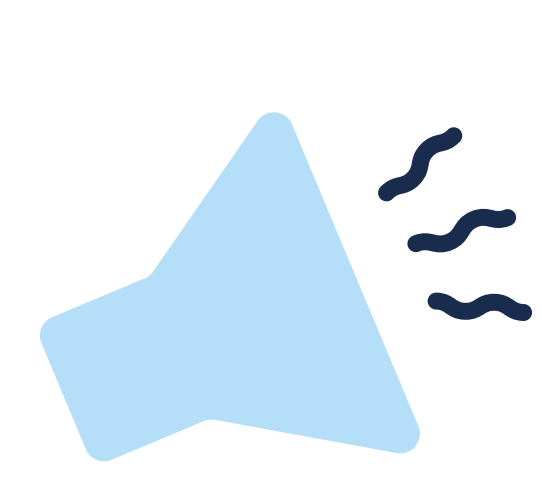

Gases

Particles

Odors

Noises

## KEY FEATURES

- Device tailored for monitoring at site fencelines
- Event signatures and fingerprints
- Gases, particles and noises analysis and identification
- Odor identification and quantification
- Real-time data (every 10 seconds)
- Triggering of remediation actions (via API)
